

All IPHONES, IPADS, IPODS and Android Devices

Registering Mobile Devices on the Hampton University Residential Network : Quick-Ref

Step by Step

Screen Shots

Make sure the mobile device wireless settings is set to use **“WIRELESS PIRATE 2”**.

Open the Internet browser on the device.

3. Click on the computer registration icon.
4. Enter your Infotech username and password and the type of device you are registering, then click Download button.
5. After clicking on Download, a success page will appear.

The mobile device has successfully registered on the university network.
